Dear Mr. Lesslie:

The purpose of this letter is to inform the Bureau that Ashland Chemical, Inc. has completed RCRA closure of the permitted hazardous waste container storage area at the Drew Kansas City facility in accordance with the approved closure plan. Enclosed are the Owner Certification of Closure and Professional Engineer Certification of Closure. According to your October 14, 1991 letter authorizing closure, the Bureau will inspect the closed area. Please contact William Dame, Plant Manager, to schedule this inspection as soon as possible since construction activities are planned for this area immediately following closure certification.

Sincerely,

Karen K. Carter
Environmental Engineer

OWNER CERTIFICATION OF CLOSURE
ASHLAND CHEMICAL, INC.
DREW INDUSTRIAL DIVISION
KANSAS CITY FACILITY

Final closure activities have been completed for the permitted hazardous waste container storage area located at the Ashland Chemical, Inc. Drew Industrial Division's facility located in Kansas City, Kansas (KSD 000 203 638). The closure plan was approved by the Kansas Bureau of Air and Waste Management on April 6, 1985. Ashland gave Notice on October 4, 1991 of our intent to withdraw the Part B permit and initiate final closure. The Bureau authorized closure to begin on October 14, 1991. Closure was executed on November 8th and 9th by Burns and McDonnell.

Closure Certification of Drew Industrial
Division Drum Storage Facility
Located at 3155 Fiberglass Road, Kansas City, KS
EPA I.D. No. KSD000203638

Dear Ms. Carter:

This letter presents Burns & McDonnell's closure certification by a professional engineer of the above-referenced permitted RCRA drum storage facility in accordance with the approved Closure Plan.

Prior to conducting the closure activities, Burns & McDonnell's certifying engineer conducted an initial inspection of the facility on December 9, 1991. All drums had previously been removed and the drum storage area was empty.

Burns & McDonnell's subcontractor, United States Environmental Services, Inc. (USESI), performed the decontamination activities on December 9 and 10, 1991. During the decontamination activities, the concrete pad, structure, and forklift were cleaned in accordance with the approved Closure Plan. Burns & McDonnell's certifying engineer made the final site inspection once the decontamination activities were complete on December 10, 1991 to document the condition of the facility after closure was complete.

Burns & McDonnell hereby certifies that the drum storage area at the Drew Industrial Division located at 3155 Fiberglass Road in Kansas City, Kansas has been closed in accordance with the approved Closure Plan.

I certify under penalty of law that this document was prepared under my direction or supervision in accordance with a system designed to assure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person or persons who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete. I am aware that there are significant penalties for submitting false information, including the possibility of fine and imprisonment for knowing violations.
